OBJECTIVE

I am looking for an opportunity to grow and develop personally and professionally while allowing me to contribute my skills, knowledge and experience in return and reflect my greater passion to be working with reputable companies in my career.

EDUCATION

Associate of Computer Science | Columbia College

SEPTEMBER 2014 – AUGUST 2016

I have gained significant and in-depth knowledge about the fundamental technologies such as Python, Java and C++ along with mathematical skills such as statistics and numerical analysis. My course concentrations are:

- Developing and understanding code from node level of programming languages
- Introduction to data processing and computer architecture
- Computers and Info Systems in Business mainly MS Office

High School | Gobindgarh Public School

APRIL 2012 – MARCH 2014

I completed my high school graduating with classes involving Mathematics, Physics and Chemistry alongside with Advanced English and Physical Education courses.

PROJECT EXPERIENCE

No Ad Music Player | Google Play Store

https://play.google.com/store/apps/details?id=com.droidheat.musicplayer

I started android application development with focus on **clean and elegant design** while writing **beautiful looking** and **easy to maintain code**. The sole purpose of this project is to gain more knowledge about **android lifecycle** and its programming language of choice **Java**. This project provides me with some of very applicable knowledge for my future projects and my professional life.

SplashLoL | Google Play Store

https://play.google.com/store/apps/details?id=com.droidheat.splashlol

I love to game, and more so graphics involved. This application is made with **REST API's** hosted on my personal development **PHP** server and League of Legends official API servers along with **relational database MySQL** hosted in cloud. I learned and have implemented principles of **asynchronous task handling** and **managing resources** such as RAM and device storages while loading and saving images in device from web servers.

Gauravjot.com | Portfolio Website

https://gauravjot.com

My portfolio website I have been working on since 2017 to track my professional life. This web-app is hosted on **Google's Firebase** and framework used was **Angular 4** with **Bootstrap**. I have since migrated the project successfully to **Angular 6** and **RxJS**.

WORK EXPERIENCE

Supervisor | Subway

OCTOBER 2017 – PRESENT

I am currently employed at Supervisor job position at Subway restaurants. While working at this job I have learned fair bit understanding of running a successful and fast-paced small business. My major take-aways from this position are:

- Communicating with customers and be client-oriented on daily basis
- Understanding needs and keeping everything in check for business to run smoothly
- Working as and managing a team and make sure proper scheduling of every individual working under me

SKILLS

- Frameworks: React, Angular and Vue
- Programming languages: JavaScript, HTML5, CSS3, SASS, Java, PHP, JSON, SQL, XML
- Industry Skills: Statistics, Numerical Analysis, Software Development, Web Development, Social Media, Project Management
- IDE's: Android Studio, Eclipse, Visual Studio Code, Atom
- Amazon Web Services: EC2, Elastic Beanstalk, Route 53, S3, RDS, DynamoDB
- Interpersonal Skills: Creative Problem Solving, Team Leadership, Resource Management, Critical Thinking

ACTIVITIES

I love to go for hikes, trails and nature involved travels. I also like to participate in runs happening in or around Vancouver and a very recent one I took part is East Side 10k. My free days are well spent outside in a quite place and I always carry a book with me to read.
